## **DETAILED ACTION**

This Office action is in response to applicant's amendment filed on 07 November 2005.

### ***Allowable Subject Matter***

1. Claims 1-19 are allowed.
2. The following is an examiner's statement of reasons for allowance:
  - Claims 1-18 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method for producing an integrated circuit with a rewiring device that includes applying at least one integrated circuit upside down on a carrier such that defined cutouts of the carrier are located above at least one connector of the integrated circuit, combined with applying an insulator on a side of the carrier that is not covered by the integrated circuit, and wherein the insulator does not overlie the at least one connector; and
  - Claim 19 is allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, an integrated circuit with a rewiring

device that includes at least one integrated circuit upside down on a carrier such that defined cutouts of the carrier are located above at least one connector of the integrated circuit, combined with an insulator on a side of the carrier that is not covered by the integrated circuit, and wherein the insulator does not overlie the at least one connector.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
